The world is watching.

Implemented source review. Hero stays image-first. No new films. Browser capture failed to start in this session.

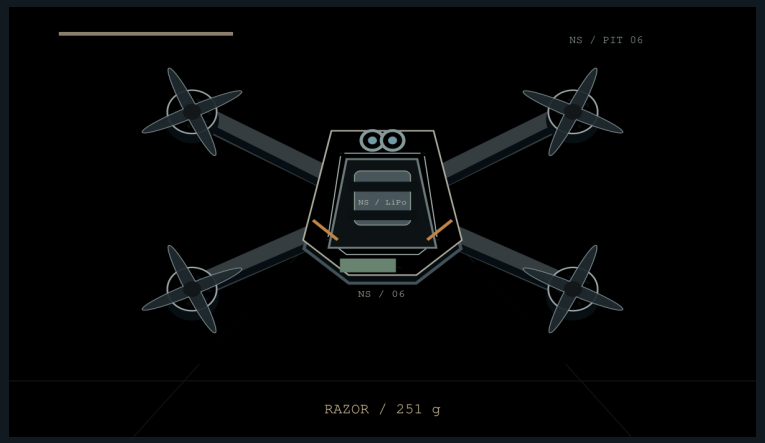

Default poster retained. Configurable final video supports muted inline looping and reduced-motion fallback. This panel combines the actual asset with source copy; it is not a captured webpage.

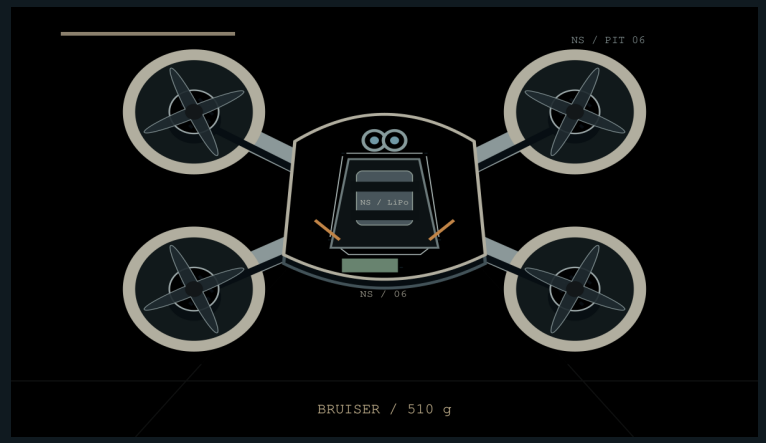

NATIONS SERIES / V2.3

A machine, not a menu.

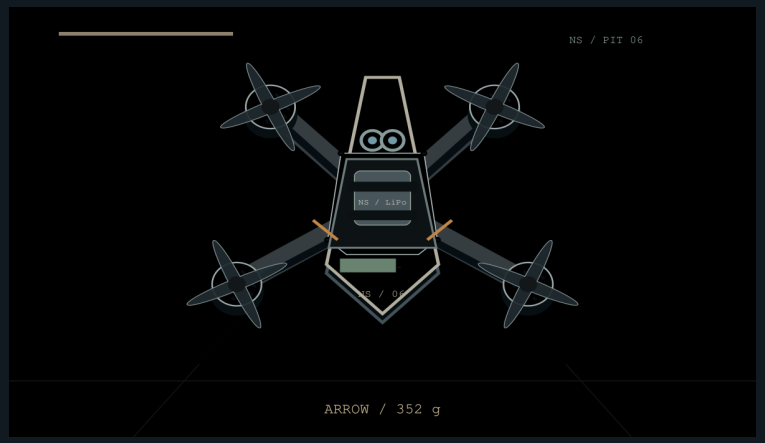

Six stages, eight architectures, original component choices and trade-offs preserved. Renderer detail upgraded procedurally.

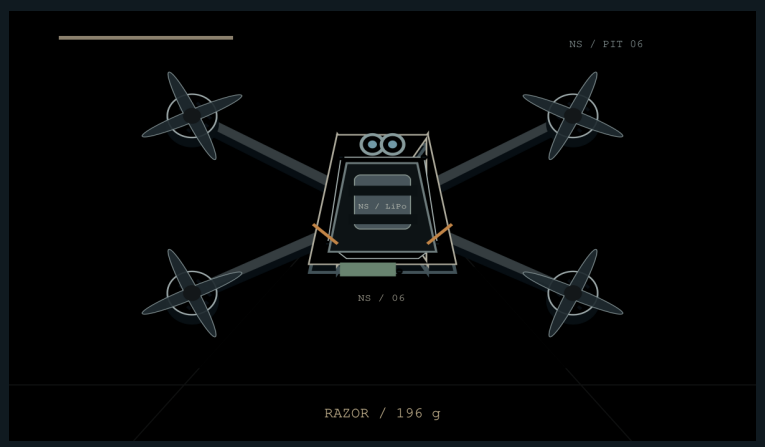

RAZOR / COMPACT

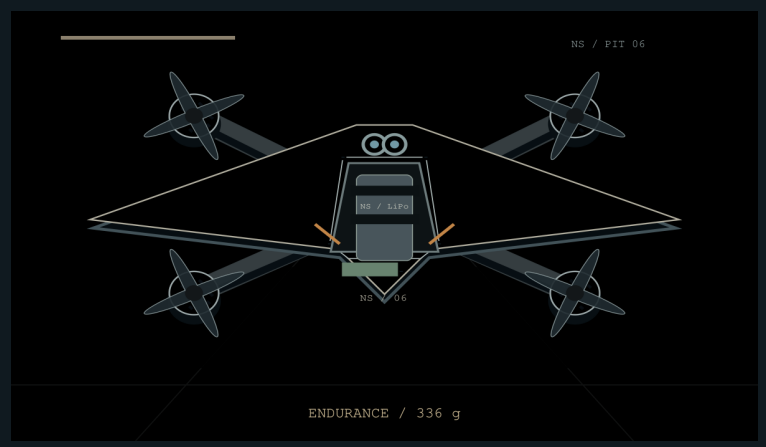

BRUISER / DUCTED

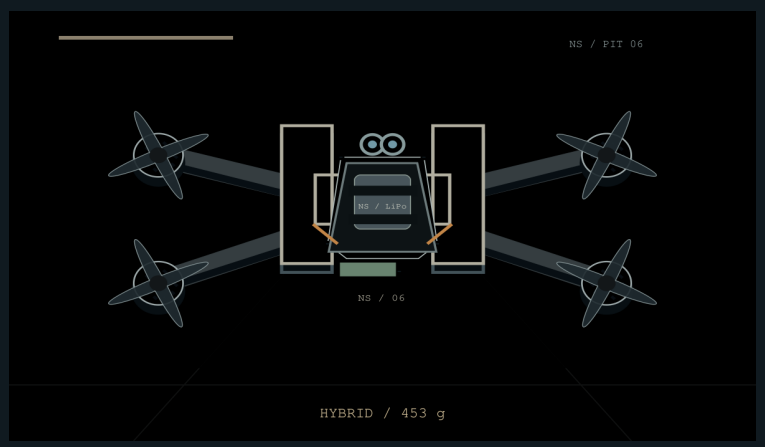

ARROW / SPEED

PHANTOM / SKELETAL

ENDURANCE / WING

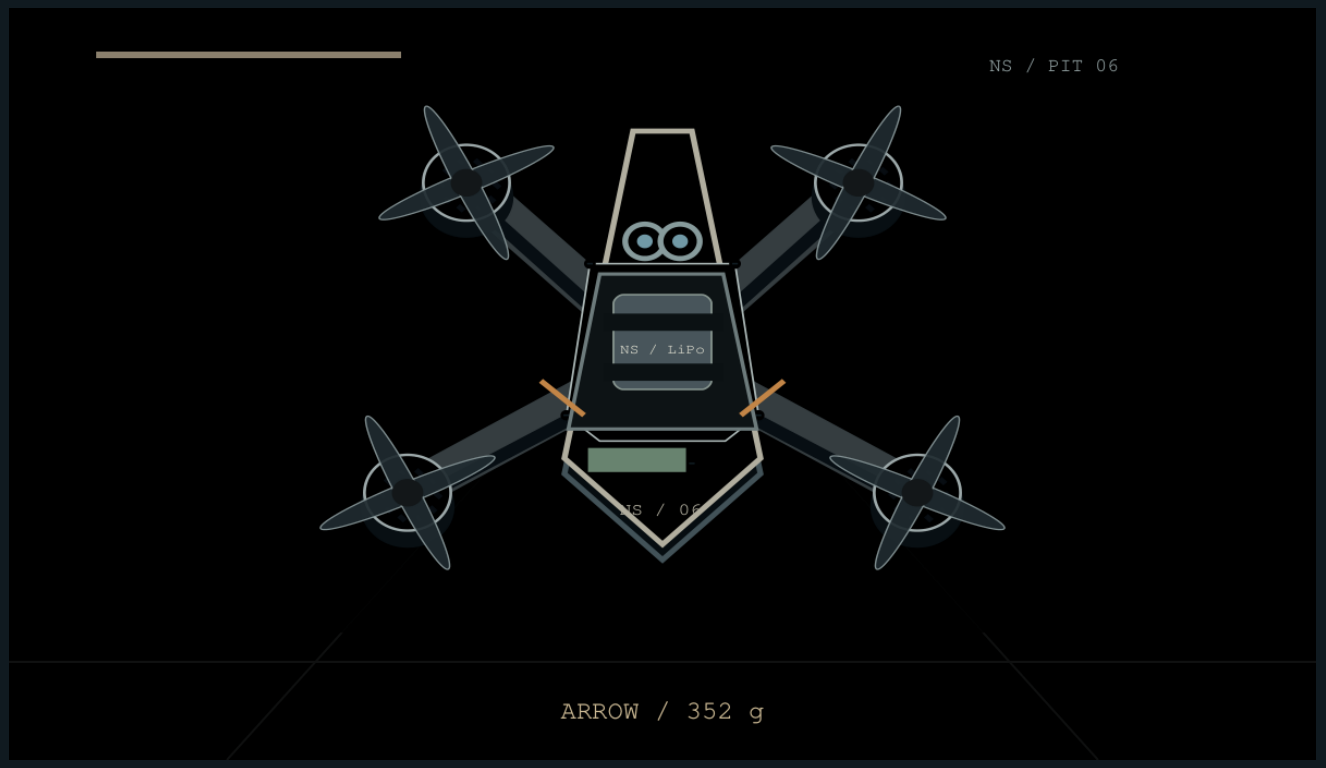

HYBRID / TWIN RAIL

Actual SVG component exports. Added layered shells, mounting fasteners, motor detail, visible battery packaging, floor depth and material lighting. Still a procedural 2.5D prototype; photorealistic production art remains incomplete.

SOURCE-DERIVED REVIEW COMPOSITION / NOT A BROWSER SCREENSHOT

Finish is a decision you can see.

Named swatches and livery cards replace the tiny swatch and numeric dropdown. Existing cosmetic saves remain compatible.

06 / 06 FINISH

Leave a signature.

- Carbon silver
- Signal orange
- Racing red
- Pacific blue
- Forest green
- Championship gold
- Violet
- Ivory

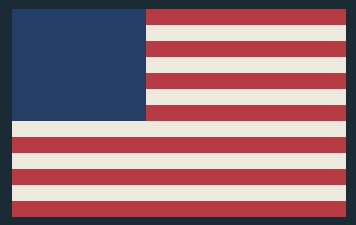

YOUR PILOT ENTRY

Review composition of implemented controls. Material still belongs to Stage 2; primary finish, accent markings and illumination remain cosmetic.

Named liveries 061 / 063 / 064 / 067. Selected state, custom color, keyboard buttons and live component updates. No physics bonus.

Your pilot dossier.

Country, callsign, aircraft and three fictional sporting partners persist together. Email remains optional.

UNITED STATES / GRID 06

QA PILOT

ARROW-11 / NATIONAL ENTRY

HX

HELIX AEROSYSTEMS

FORMA / 09

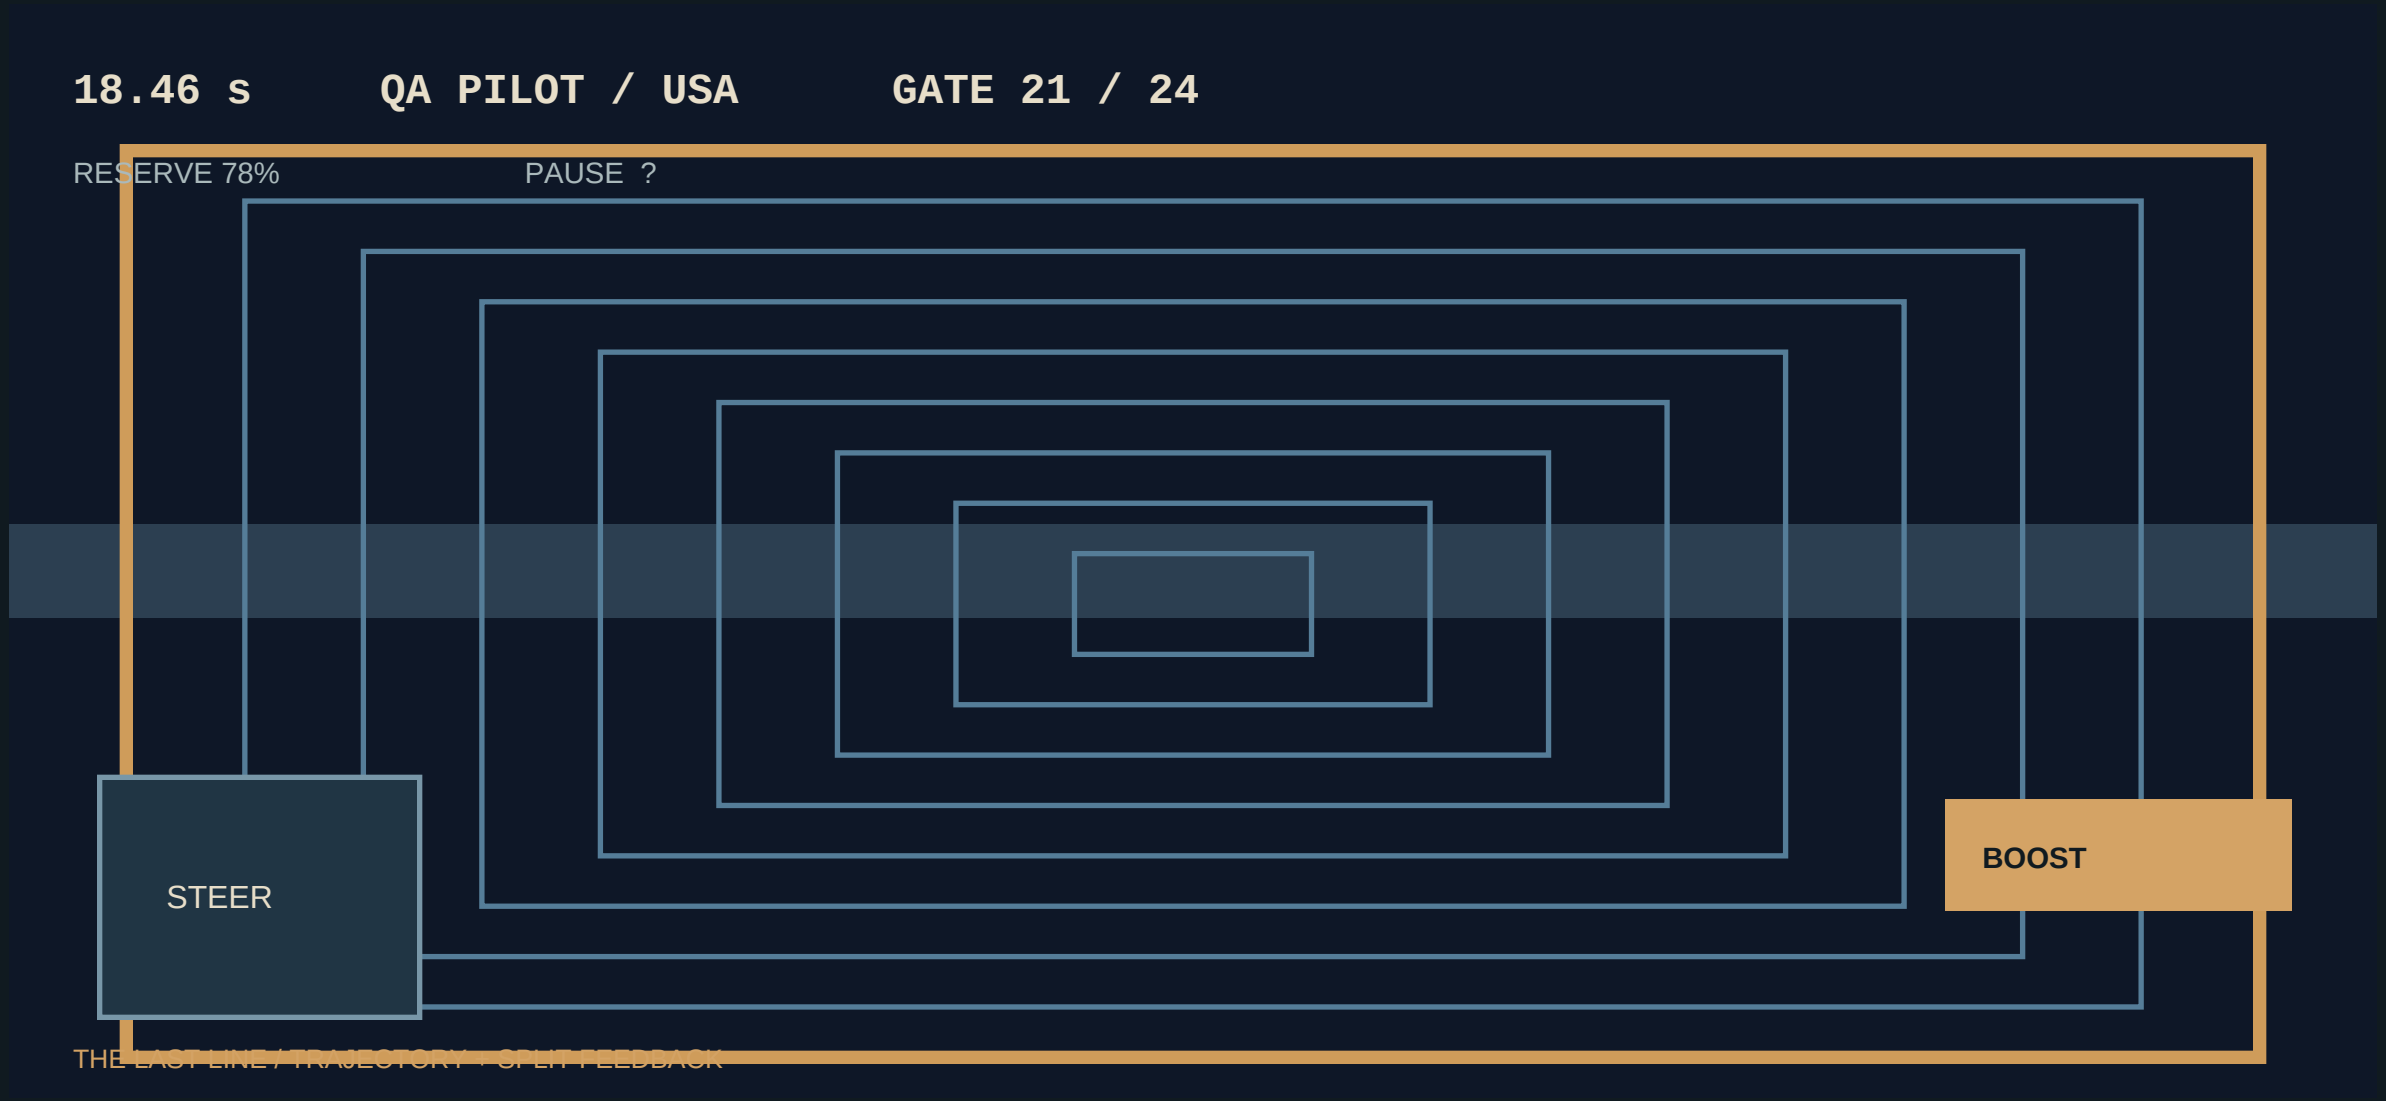

Engineering / Life sciences / Style

CONTINUE

Three independently selectable sponsor categories. Fictional marks are cosmetic, not real endorsements.
Country colors shown here demonstrate the implemented dossier styling.

Short final. Real control.

820 metres / 24 gates / three sections. Flight physics remain configuration-driven; elapsed time is never hard-coded.

Illustrative composition of implemented canvas elements. Added illuminated physical gates, infrastructure, seating, floodlights, track movement and section colors. Help opens a paused panel rather than covering racing telemetry.

A result you earned.

Talon represents the United States. Every roster entry shows a country flag; the visitor keeps their own country.

WORLD FINAL / THE FLAG FALLS

02

ARROW-11 / SCRIPTED CLEAN RUN

01	US	**TALON**	12.00 s
02	US	**QA PILOT**	17.27 s
03	JP	**VECTOR**	22.00 s
04	GB	**KESTREL**	25.00 s
05	DE	**ROOK**	28.00 s
06	BR	**WREN**	31.00 s

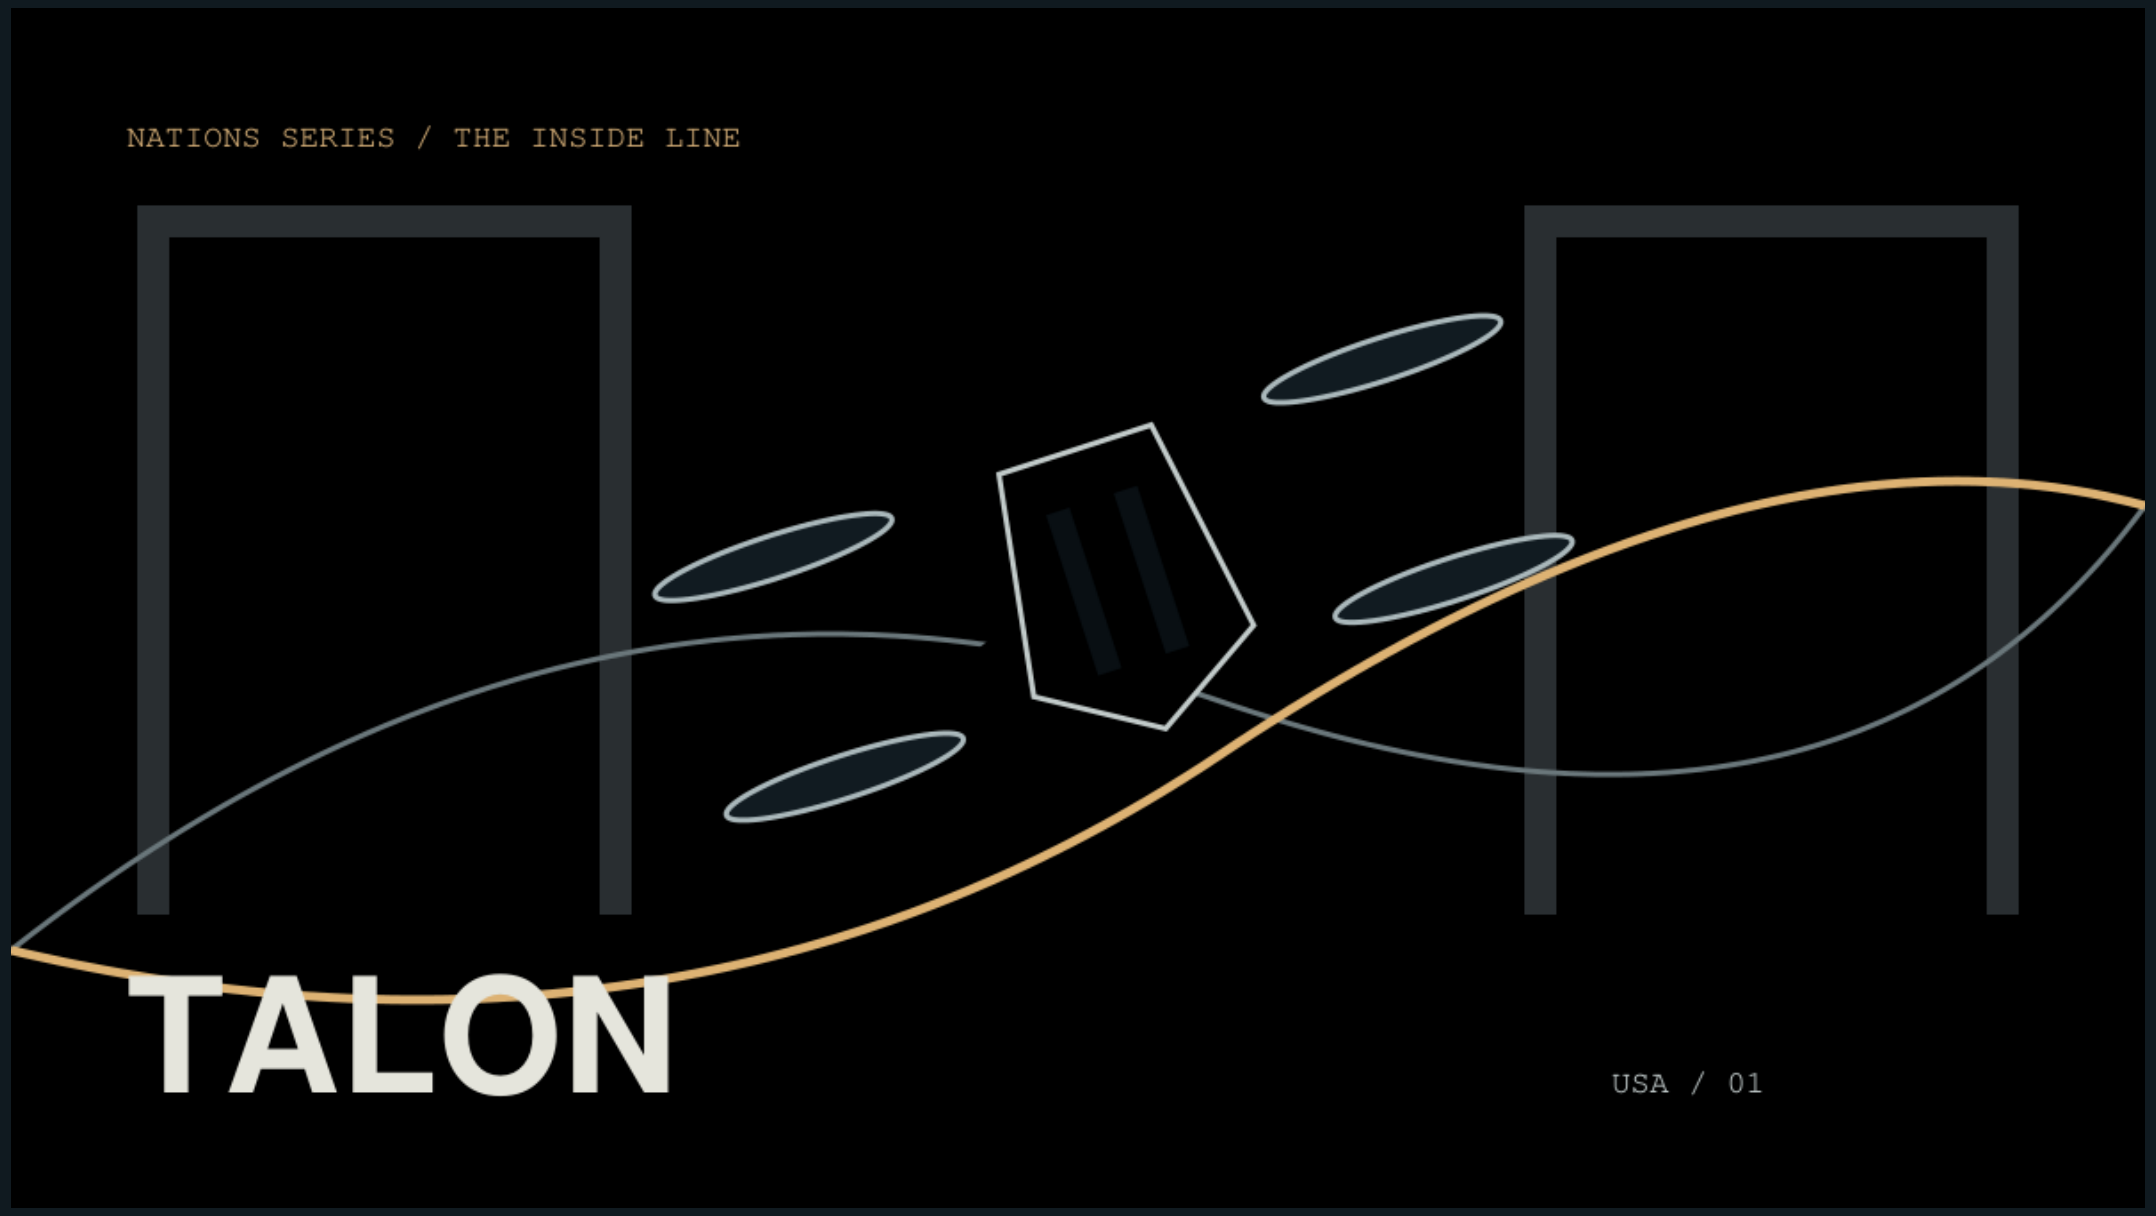

MEET THE CHAMPION

Illustrative standings from an executed model run, not a human result or live leaderboard. Rival times are fictional calibration benchmarks, not manuscript career records.

NATIONS SERIES / V2.3

Meet the champion.

Black and silver. An unconventional line. A concise sporting profile ends before any private transmission.

TALON / UNITED STATES / THE INSIDE LINE

Actual authored SVG poster. The fallback is a four-beat, approximately 9-second profile with pause, manual navigation, skip and transcript. Final 8-10-second documentary footage is not supplied.

The sport closes. The channel changes.

Eligibility remains earned: completed, unassisted, ranked second. Nonqualifiers proceed honestly to the book.

BROADCAST ENDED

Quiet transition / 1.1 seconds

PRIVATE CHANNEL

YOU CAN FLY.
WE CAN PAY.

PRIVATE CONTRACT

$25,000

Would you accept?

ACCEPT

DECLINE

No timer, employer, destination or mission before choice. The provisional amount is approved prototype fiction, not confirmed manuscript canon or a real offer. Reduced motion gives manual control over closure.

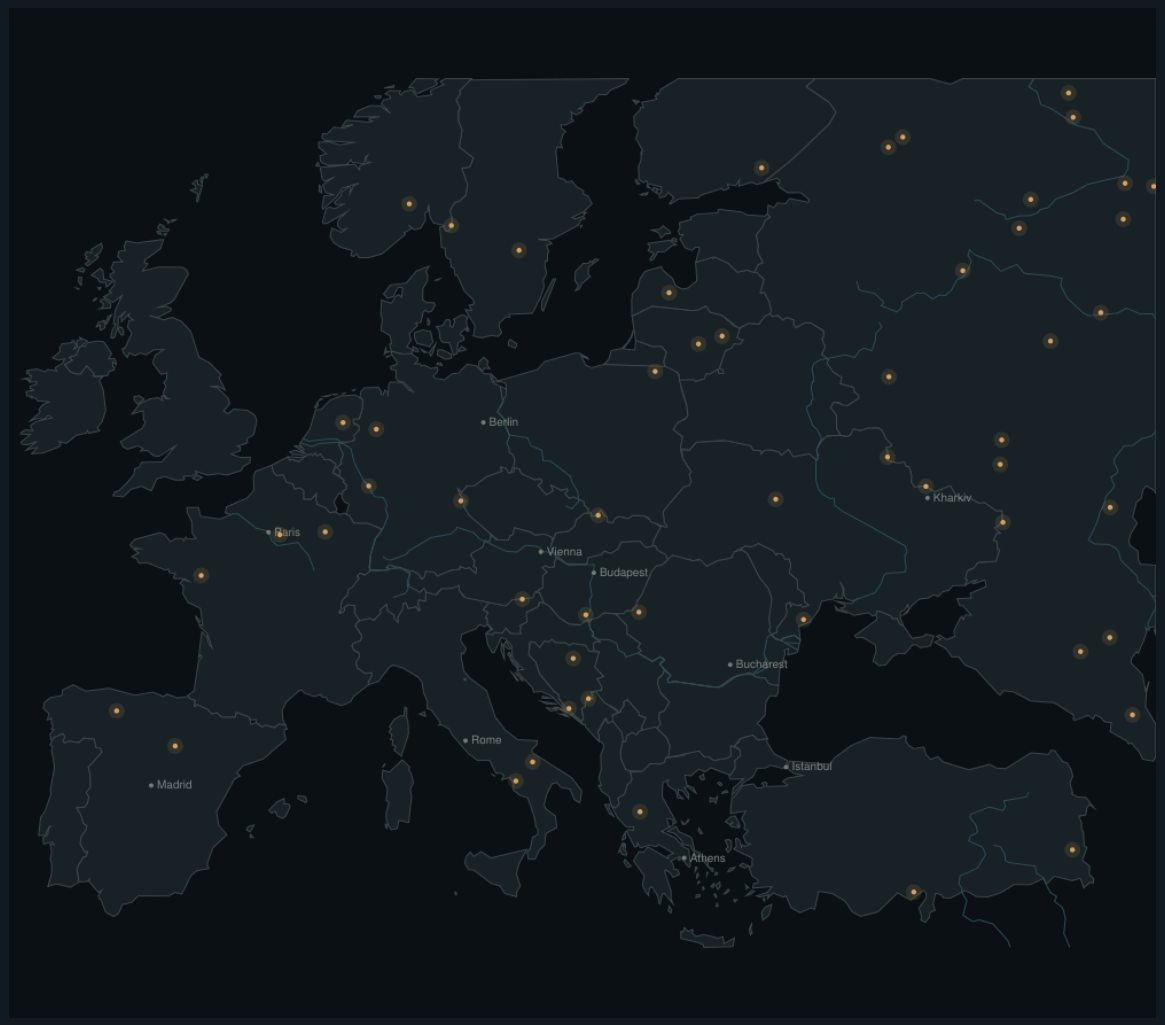

NATIONS SERIES / V2.3

Accept: the existing Europe map.

Reuse, not replacement. Existing FrontMap / TheaterBasemap / geography / anonymous ledger remain the same system.

01 / EUROPE OVERVIEW

04 / ANONYMOUS CONTRACT RECORDS

Actual server-rendered SVG exports, without browser styling. Four optional steps: Europe, contested territory, private records, wider world. Residual Talon branding and identity-linked selectors removed. Geography remains fictional narrative geography.

SOURCE-DERIVED REVIEW COMPOSITION / NOT A BROWSER SCREENSHOT

NATIONS SERIES / V2.3

Decline: the world still exists.

The choice persists locally without restricting later racing, the map, the workshop or the novel.

CHANNEL CLOSED

ACCEPTED / CHANNEL TRANSFERRED

Explore briefly.

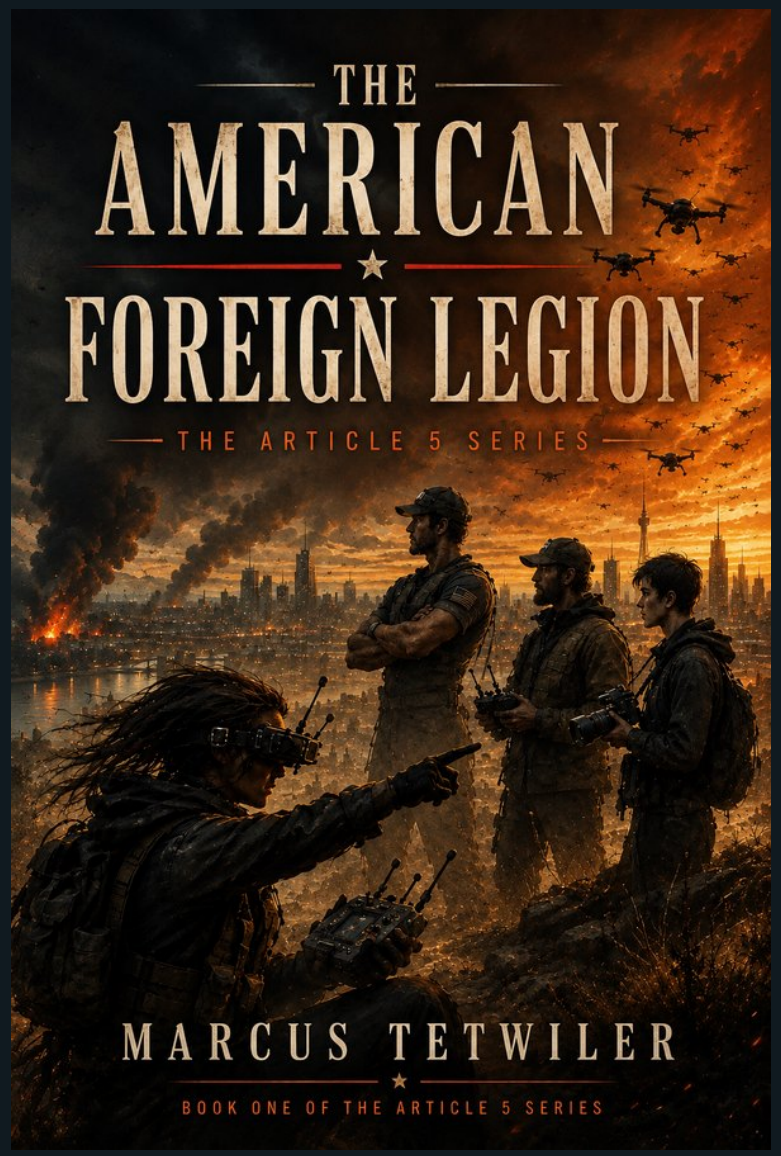

Or continue immediately.

CONTINUE TO THE NOVEL

Review composition. Both branches reach the same book reveal. No morality score, guilt copy or combat mission.
Returning visitors can race and tune without repeating the first journey.

Discover the larger story.

Original cover and current author-approved sample are unchanged. Primary action: READ THE FIRST CHAPTER.

THE AMERICAN FOREIGN LEGION

You have raced against Talon.

Now discover his story.

READ THE FIRST CHAPTER

JOIN THE LAUNCH LIST

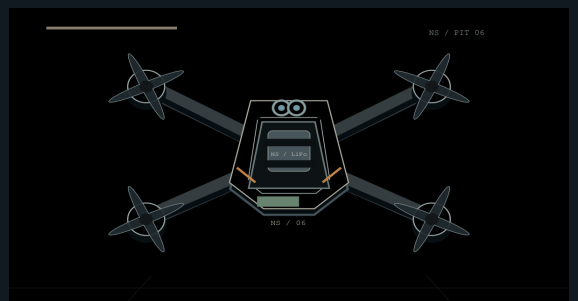

EXPLORE THE BOOK

Original asset with source copy. Immediate reading remains free. Email and marketing consent remain optional.
Retailer purchase remains unavailable until a real link is configured.

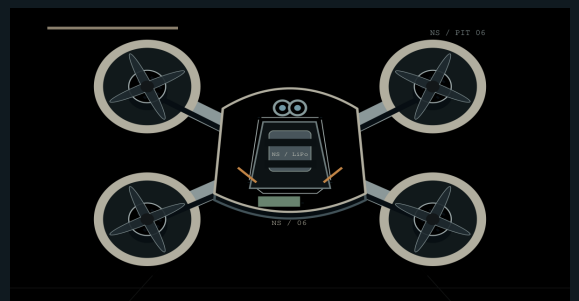

NATIONS SERIES / V2.3

An international showcase.

Sixteen distinct fictional pilots, countries and configurations. Explicitly labeled showcase entries, not fabricated live users.

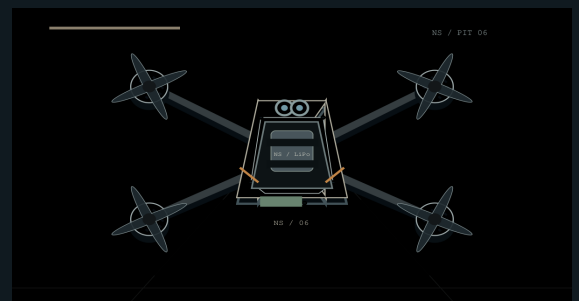

KITE / JP

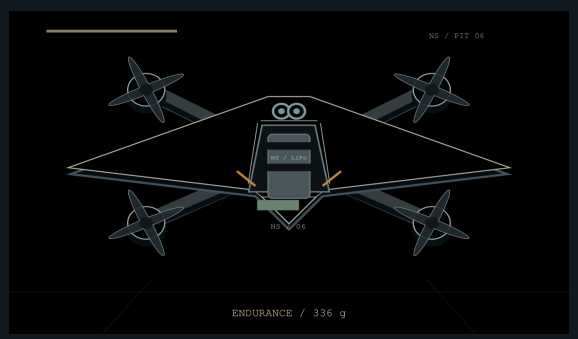

SABLE / FR

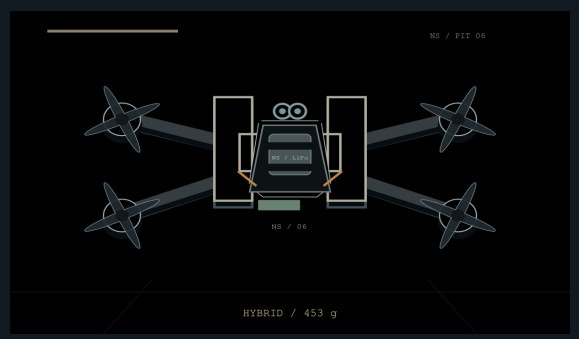

APEX / US

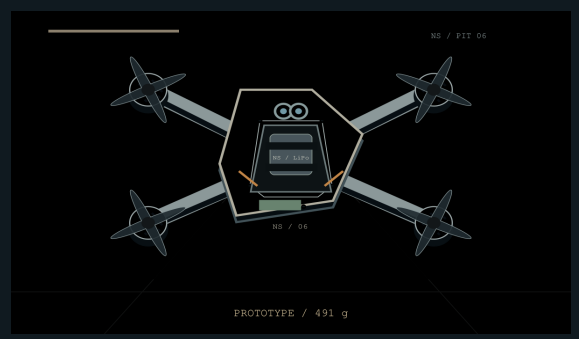

MONSOON / IN

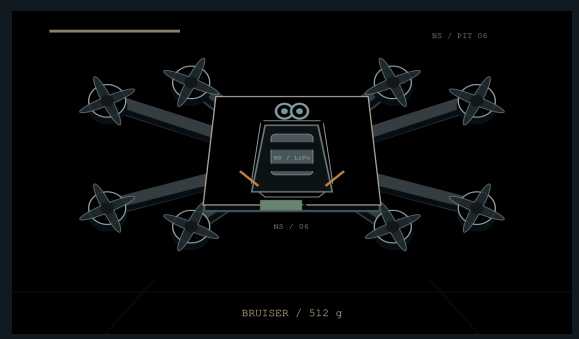

ORBIT / BR

CIRRUS / GB

EMBER / CA

VOLT / DE

Actual component exports used to illustrate the build range. Website entries include callsign, full country and flag, aircraft name, distinct configuration and Inspect & tune. Existing local workshop submissions remain separately available.

Keep the watercolor. Fix the footer.

The original footer artwork remains. Explicit image dimensions, controlled crop and a legible gradient replace the degraded presentation.

THE AMERICAN FOREIGN LEGION

Coming soon / Paperback / Kindle

Press / Inquiries / Rights

Actual retained artwork with review typography. Image is 1170 x 624, not missing. The old CSS treatment heavily cropped and darkened it. New responsive object-fit presentation must still be inspected on an actual phone.

Site footer provides the fiction disclosure. The hero no longer carries a visible explanatory disclaimer.

Validation: evidence and limits.

This is a source-complete review import. Visual acceptance and real-phone gameplay approval remain open.

PASS

38 automated tests

Catalog, physics, narrative order, sponsors, flags, cosmetics, community and map boundaries.

PASS

Lint and production build

No new application dependencies; static assets and existing API retained.

PASS

Source rendering

13 scene structures, all six builder stages, eight aircraft and four map steps rendered in SSR.

PASS

Clean project reconstruction

Full application ZIP extracted in a new directory; dependency install, tests, lint and build rerun.

BLOCKED

Browser screenshots and viewport tests

Browser runtime startup fails with read-only sessions filesystem error. No screenshots claimed.

PENDING

Real users / iPhone / production services

Controls, difficulty, race enjoyment, touch, performance and email delivery need real validation.

This PDF is a composition review, not proof of responsive layout or cinematic production quality.

NATIONS SERIES / V2.3

The next review should be playable.

Preserve the design. Learn from a small moderated test before adding more features.

01 / Import to a review environment

Extract ZIP with paths intact. Follow the explicit obsolete-module deletion instruction.

02 / Complete the journey on a real phone

Build, customize, select sponsors, train, race, retry, inspect result, meet Talon and read.

03 / Verify both narrative branches

Use explicit test fixtures separately from earned race outcomes. Check refresh and reduced motion.

04 / Observe five first-time visitors

No coaching. Measure task completion, race understanding, retry desire and sample interest.

05 / Install final media later

Hero and Talon films have documented slots; both ship as posters until approved footage exists.

Mystery should increase while usability confusion decreases.
